## Order Information

### Ag and Cu surcharges

All products containing silver/copper shall be subject to surcharges if the limit value is exceeded. The level of the surcharges is calculated as follows:

NE metal surcharges =	("quote for metal" <sup>1)</sup> - "limit value") x the metal weight contained in the respective product
The limit value is as follows:	<ul style="list-style-type: none"><li>• for copper (Cu) 150,- €/100 kg</li><li>• for silver (Ag) 150,- €/001 kg</li></ul>

1) for Cu: Previous month's average of the upper DEL quotation + 1% handling fee

for Ag: "German quotation processed"; both to be found in the EIS of GPL.

### Registered trademarks

All product designations may be registered trademarks or product names of Siemens AG or other supplying companies. Third parties using these trademarks or product names for their own purposes might infringe upon the rights of the trademark owners.

### Ordering special designs

When ordering products that differ from the standard designs, the Order No. in the catalog must be supplemented by a "-Z"; the required characteristics must then be specified either by means of brief alphanumeric data or in plain text.

### Ordering very small quantities

When ordering very small quantities, the cost of order processing often exceeds the order value. We therefore recommend that you combine several small orders. Where this is not possible, please note that we are obliged to make a small processing charge: for orders with a net goods value of less than 100.- € we charge a 15.- € supplement to cover our order processing and invoicing costs.
